This notice applies to your vehicle: **Insert VIN**

### FOLLOW-UP NOTICE

August 9, 2024

Dear Kia Telluride Vehicle Owner:

**Kia has identified a defect in your vehicle which relates to motor vehicle safety.**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Kia America, Inc. has decided that a defect which relates to motor vehicle safety exists in certain 2020 MY Telluride vehicles. The defect may cause the loss of high beam(s) and reduce driver's visibility, thereby increasing the risk of a crash. **The remedy parts are now available for your vehicle.**

#### **What Is The Problem?**

The high beam shield gear mechanism in your vehicle can become damaged due to heat generated from the halogen bulb. If this occurs, the high beam headlight(s) is no longer operable. Inoperable high beam headlights may reduce visibility, increasing the risk of a crash. This condition does not affect the operation of the low beams.

#### **Kia Will Inspect And, If Necessary, Repair or Replace The Headlamp Assembly Free of Charge At No Cost To You.**

Kia dealers will inspect and, if necessary, repair or replace the headlamp assembly. This recall will be performed **free of charge at no cost to you**. The estimated time required to perform this recall will be approximately one (1) to two (2) hours. However, your vehicle may be needed longer depending on the result of the inspection and shop scheduling. We recommend scheduling a service appointment to minimize your inconvenience.

#### **What Should You Do?**

- **WARNING:** You may experience reduced high beam visibility from either the left or right side due to an inoperable high beam. Kia reminds its customers to use safe driving practices including adjusting speed and distance based on external light conditions.
- In the interest of the safety of your passengers, as well as your own safety, contact your authorized Kia dealer to arrange for the recall to be performed on your vehicle.
