Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect, which relates to motor vehicle safety, exists in **certain 2024 Model Year IONIQ 6 vehicles**. Hyundai is initiating Safety Recall 259 to have the rear Motor-Gear Drive Unit (“MGDU”) differential gear assembly replaced on these vehicles in the U.S. Our records indicate that your vehicle is affected by this recall.

#### What is the problem?

These vehicles are equipped with a rear MGDU differential gear assembly that may have been installed with insufficiently tightened bolts. A MGDU operating with loose bolts can cause the differential to lock up and/or a sudden loss of drive power, increasing the risk of a crash.

#### What will Hyundai do?

Your Hyundai dealer will replace the rear MGDU differential gear assembly. This procedure will be performed at **NO CHARGE** to you.

#### What should you do?

**Please contact your nearest Hyundai dealer to schedule this procedure.**

The actual time required to replace the MGDU assembly on your vehicle will take less than five hours, however, your vehicle may be needed longer. To schedule an appointment with your preferred Hyundai dealer:

1. Visit [www.hyundaiusa.com/campaignhome](http://www.hyundaiusa.com/campaignhome)
2. Enter your 17-digit VIN from the top of this letter and click the “Search” button.
3. Click the “Schedule Appointment” button and follow the onscreen prompts.

#### Additional information

If you believe that the dealer or Hyundai has failed or is unable to remedy the defect without charge, or within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, D.C. 20590, or call the toll-free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to [www.safercar.gov](http://www.safercar.gov).

Thank you for your attention to this important safety matter. We apologize for any inconvenience this may have caused you.
