Dear Mercedes-Benz eSprinter Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG, the manufacturer of eSprinter vans, has decided that a defect which relates to motor vehicle safety exists in certain Model Year ("MY") 2024 Mercedes-Benz eSprinter vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the issue?

On certain eSprinter (907 platform) vehicles, the fallback level of the power brake assist software might not meet specific force requirements. the brake booster may erroneously activate a limited fallback level. As a result, the force required to stop the vehicle may increase, requiring an extended distance to stop. This could increase the risk of a crash.

What will your Mercedes-Benz Dealer do?

An authorized Mercedes-Benz Sprinter dealer will update the ESP control unit software.

This could take approximately 1 hour. This service will be provided **free of charge**. You may be asked for your 17-digit Vehicle Identification Number (VIN) which for your convenience is located above your name at the top of this letter.
