THIS NOTICE APPLIES TO YOUR VEHICLE – SEE VIN IN APPENDIX A
NHTSA RECALL NO. 24V328

Mr. Customer
Transit Bus Agency
260 Banker road
Plattsburgh, NY, USA 12901

July 5th, 2024

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Nova Bus (US) Inc. has decided that a defect which relates to motor vehicle safety exists in certain Nova Bus model LFS and Model Years 2022 to 2023 manufactured from January 2023 to August 2023 equipped with Cummins engines built between December 2022 and March 2023 that use a remote secondary fuel filter hose.

Following the equipment recall 24E038 received from Cummins Inc., the affected vehicles may have been built with fuel hoses for the secondary remote fuel filter that may disconnect. In the event of a fuel hose disconnection, the engine may shutdown and a fuel spillage outside of the engine bay may occur. A fuel leak in the presence of an ignition source may increase the risk of fire. In addition, an unexpected engine shutdown can increase the risk of crash.

Your vehicle is not safe to drive until a repair is performed! Please have your vehicle repaired immediately!

The service document CR5595 explaining the measures to be taken to remedy the affected vehicles will be published on Nova Bus web site <https://us.novabus.com/customer-portal/>. The service document CR5595 informing you of the applicable corrective measures published by Cummins Inc. via their document "Cummins C7032". The vehicles can be remedied starting from July 3rd 2024. The remedy, replace fuel hoses for the secondary remote fuel filter, should take approximately 10 minutes to complete. The necessary replacement parts will be available via the Nova Bus Parts distribution network. Nova Bus (US) Inc. will cover the parts and labour costs of the repair according to the warranty claim policies in effect. Federal law requires that you forward a copy of this safety recall notice to the lessee within 10 days. If you no longer own this vehicle, or it has been removed from operation permanently, please inform the undersigned.

You may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of a problem associated with this Safety-Related Defect. Please submit copies of all documentation supporting your claim according to the requirements specified in the "General Plan for Reimbursement of Pre-notification Remedies" provided in this notification in Appendix B.

After contacting your customer support manager, if you are still not able to have the Safety-Related Defect remedied without charge and within reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., SE., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov> .
