## IMPORTANT SAFETY RECALL 24508 NHTSA RECALL NO. 24V-375

This notice applies to your vehicle identified on the enclosed card.

Dear IC Bus Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

IC Bus has decided that certain 2024 and 2025 IC Bus® CE school buses built 01/05/2023 through 05/02/2024 with feature code 04091 (Truck Dual Air Brake System) may not conform to the Federal Motor Vehicle Safety Standard (FMVSS) 121; Air Brake Systems.

### **REASON FOR THIS RECALL**

Certain CE School Buses may not conform to Federal Motor Vehicle Safety Standard (FMVSS) 121; Air Brake Systems:

- S5.1 *Required equipment for trucks and buses.* Each truck and bus shall have the following equipment:
  - S5.7.1 *Service Brake Stop Lamp Switch.* A switch that lights the stop lamps when the service brake control is statically depressed to a point that produces a pressure of 6 psi or less in the service brake chambers.

### **RISK TO MOTOR VEHICLE SAFETY**

Stop lamps that do not conform to all the requirements of FMVSS 121 may not illuminate when the driver depresses the brake pedal.

This may not alert other motorists that the bus is slowing, which can increase the risk of a vehicle crash that may result in property damage or injury.

The repair will involve programming the correct software configuration into the bus. Dealers have instructions to repair your vehicle. The repair will be performed free of charge and take approximately one-half hour to complete.
