IMPORTANT SAFETY RECALL

Incorrect Power Distribution Center

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that certain [2024 (JL) Jeep Wrangler] vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 108 – Lamps, reflective devices, and associated equipment.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The Power Distribution Center (PDC) on your vehicle ^[1] may be incorrect for the vehicle and prevent the trailer lighting from functioning properly. **Trailers with inoperative turn signals and stop lamps may result in an approaching vehicle being unaware of the change of direction or speed of the vehicle and trailer, which can cause a vehicle crash without prior warning.**

The condition above fails to conform to the requirements of FMVSS No. 108 Lamps, Reflective Devices and Associated Equipment TABLE I-b states that trailer turn signal lamps shall "flash when the turn signal is actuated by the turn signal operating unit" and the stop lamps "must be activated upon application of the service brakes." Suspect vehicles may not actuate the trailer turn signals or stop lamps.

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US LLC will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will replace the PDC. The estimated repair time is 30 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service. Please bring this letter with you to your dealership.

**TO SCHEDULE YOUR FREE REPAIR,
