## IMPORTANT SAFETY RECALL 24509 NHTSA RECALL NO. 24V-462

This notice applies to your vehicle identified on the enclosed card.

Dear INTERNATIONAL® Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Navistar has decided that a defect which relates to motor vehicle safety exists in certain 2025 HV® series trucks built 05/02/2024 thru 05/13/2024, LT® series trucks built 04/30/2024 thru 05/30/2024, MV™ series trucks built 04/16/2024 thru 06/04/2024 and RH™ series trucks built 04/25/2024 thru 04/25/2024 with Dana® Spicer® D or E Series steer axles.

### **REASON FOR THIS RECALL**

Certain ball studs supplied to Dana by a third-party supplier, USK International, and which Dana incorporated into certain steer axles and replacement tie rod assemblies, did not meet case hardening specifications, and there is a risk that the ball studs could be more brittle than intended.

### **RISK TO MOTOR VEHICLE SAFETY**

If a ball stud is more brittle than expected, it could break, which could affect vehicle steering and could increase the risk of a crash.

### **DEFECT REMEDY**

The repair will involve replacing the tie rod ends on a tie rod with a suspect date code and re-aligning the front axle. Dealers have parts and instructions to repair your vehicle. The repair will be performed free of charge and take approximately an hour to complete.
