IMPORTANT SAFETY RECALL

Buckle Switch/Airbag Light

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that a defect, which relates to motor vehicle safety, exists in certain [2019 through 2023 (BV) Jeep Renegade] vehicles.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The buckle switch hall effect sensor on your vehicle ^[1] may be improperly connected. A disrupted connector on the buckle switch hall effect sensor may cause the front seat air bag to not perform as intended during a crash. **An airbag that does not deploy as intended in the event of a vehicle crash may result in increased risk of injury.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US LLC will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will replace the connector by directly wiring the sensor to the harness with a solder tube. The estimated repair time is 1 hour. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service. Please bring this letter with you to your dealership.

**TO SCHEDULE YOUR FREE REPAIR,
CALL YOUR CHRYSLER, DODGE, JEEP OR RAM DEALER TODAY**
