Audi of America, Inc.

<MONTH YEAR>

<CUSTOMER NAME>

<CUSTOMER ADDRESS>

<CUSTOMER CITY STATE ZIPCODE>

**This notice applies to your vehicle:** <MODEL YEAR> <BRAND> <CARLINE>, <VIN>

**NHTSA:** 24V621

**Subject: Safety Recall 46P6 – Brake Booster**

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that a defect, which relates to motor vehicle safety, exists in certain 2019 model year Audi vehicles. Our records show that you are the owner of a vehicle affected by this action.

Audi of America, Inc.  
3800 Hamlin Road  
Auburn Hills, MI 48326  
+1 800 253 2834  
[www.audiusa.com](http://www.audiusa.com)

**What is the issue?**

It is possible that the bolt connection from the input rod on the brake pedal to the actuator rod on the brake booster was not performed according to manufacturing specifications. Because of this, the screw connection may disconnect. If a complete separation would occur, vehicle braking would only be possible using the emergency braking function, increasing the risk of a crash.

**What will we do?**

To correct this defect, your authorized Audi dealer will inspect the pushrod screw joint in the brake booster and, if necessary, torque it to the correct specification. This work will take up to two hours to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the work, as well as to accommodate their daily workshop schedule.

**What should you do?**

Please contact your authorized Audi dealer without delay to schedule this recall work. For your convenience, you can also visit [www.audiusa.com](http://www.audiusa.com) and click on the “Find a Dealer” link to locate a dealer near you and schedule this service.

**Precautions you should take:**

If the recall condition is present in the vehicle, after applying and releasing the brake pedal the driver may notice an unusual noise or notice that the brake pedal does not return to its original position. In the event of a complete loosening of the screw fitting and the separation of the connection, braking is only possible by using the emergency braking function. Owners are reminded to consult the owner's manual for information regarding the emergency braking function. If there are vehicle concerns, contact an authorized Audi dealer to have the vehicle diagnosed without delay.

## IMPORTANT SAFETY RECALL

### Additional Information

- If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten (10) days of receipt.
- If your authorized Audi dealer fails or is unable to complete this work free of charge within a reasonable time, if you have changed your address or no longer own the vehicle identified in this letter, or if you should have any questions about this communication, please contact Audi Customer Experience at 1-800-253-2834 or via our "Contact Us" page at [www.audiusa.com](http://www.audiusa.com).
- If you still cannot obtain satisfaction, you may file a complaint with: The Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.
- To check your vehicle's eligibility for repair under this or any other recall/service campaign, please visit the Recall/Service Campaign Lookup tool at [www.audiusa.com](http://www.audiusa.com) and enter your Vehicle Identification Number (VIN).
- If you have previously paid for repairs relating to the condition described in this letter, the enclosed form explains how to request reimbursement. We would be pleased to review your reimbursement request.

We apologize for any inconvenience this matter may cause; however, we are taking this action to help ensure your safety and continued satisfaction with your vehicle.

Sincerely,

Audi Customer Protection
