NHTSA Recall 24V-712

This notice applies to your vehicle: SCFRMFGW1RGM12636

Dear (),

Safety Recall Action RA-03-1973 - DB12 Oil Cooler Hoses

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

- Aston Martin has decided that a defect which relates to motor vehicle safety exists in **2024 – 2025 DBX707, DB12 & 2025 Vantage** vehicles.

Certain oil hoses for the oil cooler exhibit inconsistent inner wall thickness that identify parts that may be prone to split resulting in loss of oil and oil pressure. Sudden and rapid loss of oil and oil pressure could lead to the engine stalling or seizing which increases the risk of crash or fire (in the presence of an ignition source). Before failing, the oil level and pressure warnings may be displayed in the instrument cluster. After failing, the driver may see smoke from the engine area.

The repair involves the replacement of the oil hoses for the oil cooler.
