This notice applies to your vehicle: <MODEL YEAR> <BRAND> <CARLINE>, <VIN>

NHTSA: 24V726

Subject: Safety Recall 931A - High-Voltage Battery Modules

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that a defect, which relates to motor vehicle safety, exists in certain 2022-2024 model year Audi vehicles. Our records show that you are the owner of a vehicle affected by this action.

What is the issue?

Certain high-voltage (HV) batteries may experience short circuits within the battery modules. A short circuit in the high-voltage battery module can increase the risk of a fire.

What will we do?

To correct this defect, your authorized Audi dealer will update vehicle software and, if necessary, replace the high-voltage battery modules in affected vehicles. The software update will take about an hour to complete. High-voltage battery module replacement, when necessary, will take up to three (3) days to complete, depending on the number of modules requiring replacement. Both the software update and high-voltage battery module replacement (if necessary) will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the work, as well as to accommodate their daily workshop schedule.

What should you do?

Please contact your authorized Audi dealer without delay to schedule this recall work. For your convenience, you can also visit www.audiusa.com and click on the "Find a Dealer" link to locate a dealer near you and schedule this service.

Precautions you should take:

As a precaution, Audi recommends setting the maximum battery charge to 80%. This is an important measure to help protect the high-voltage battery modules in the vehicle until the recall remedy can be performed.

The vehicle owner's manual contains important information about charging the vehicle, and regarding the vehicle's warning lights and messages. We encourage owners and anyone who drives the vehicle to review the owner's manual to become familiar with charging procedures, and with the types of vehicle indicators, warnings and messaging they may see.

Additional Information

- If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten (10) days of receipt.
- If your authorized Audi dealer fails or is unable to complete this work free of charge within a reasonable time, if you have changed your address or no longer own the vehicle identified in this letter, or if you should have any questions about this communication,
