This notice applies to your vehicle, [REDACTED]

NHTSA Recall No: 24V-832

Dear Tesla Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Tesla, Inc. has decided that a defect, which relates to motor vehicle safety exists in certain model year ("MY") 2024 Cybertruck vehicles. Our records show that you are the owner of a vehicle affected by this action.

On affected vehicles, a fault in the drive inverter may cause it to stop producing torque. If the inverter stops producing torque, the driver loses the ability to apply torque to the vehicle using the accelerator pedal resulting in a loss of propulsion, which may increase the risk of a collision.

WHAT TESLA WILL DO

At no charge to you, Tesla Service will replace the recalled drive inverter with a drive inverter equipped with a properly functioning MOSFET component.
