Dear Indian Motorcycle Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Indian Motorcycle has decided that a defect which relates to motor vehicle safety exists in 2025 Scout motorcycles.

***The reason for this notice:***

Indian Motorcycle has determined that the rider display on some Model Year 2025 Scout and Scout Sixty motorcycles may falsely indicate an incorrect gear. Incorrect indication of NEUTRAL can cause unintended movement, increasing the risk of crash or serious injury.

***What you should do:***

When starting your motorcycle you should always exercise the following steps as outlined in the Owner's Manual:

1. Straddle the motorcycle and bring it to the fully upright position. Retract the sidestand.
2. Move the engine stop/run switch to the RUN position.
3. Shift the transmission to neutral.
4. Apply the front brakes.
5. Disengage the clutch (pull the clutch lever fully toward the handlebar).
6. Start the engine.

Contact your authorized Indian Motorcycle dealer to schedule an appointment to have the remedy performed. Do not attempt repairs yourself. Repairs must be done by an authorized Indian Motorcycle dealer. This repair should take approximately 20 minutes. When making contact with your dealer, discuss parts availability, their schedule and how long they will need to keep your vehicle.
