

GROUP	NUMBER
RECALL	24-01-025H
DATE	MODEL(S)
MARCH 2024	ELANTRA (MD) ELANTRA (UD)

* IMPORTANT

Vehicle repairs related to safety recalls are critically important and must be performed properly in accordance with TSB procedures. Review this bulletin in its entirety prior to beginning any repair work.

As required by federal law, dealers must not deliver new vehicles for sale or for lease to customers until all open recalls have been performed. Dealers must also perform all open recalls on used vehicles, demo, and rental vehicles prior to placing them into customer use and whenever an affected vehicle is in the shop for any maintenance or repair.

Access the "Vehicle Information" screen via WebDCS to identify open recalls.

Description: On certain Elantra (MD) and Elantra (UD) vehicles, the trunk latch pawl can thermally contract when exposed to high ambient temperatures. An attempt to release the pawl and open the trunk lid in this condition could result in damage to the pawl, preventing opening of the trunk lid through actuation of the emergency trunk release and presenting risk of injury to an occupant locked in the trunk. This bulletin describes the procedure to replace the trunk latch base with revised parts.

Applicable Vehicles (Certain):

- 2015–16MY Elantra (MD) vehicles produced 12/26/2014 to 10/28/2015; VIN starts with 'KMH'
- 2015–16MY Elantra (UD) vehicles produced 02/02/2015 to 12/22/2015; VIN starts with '5NP'

Parts Information:

Model	Part Name	Part Number	Figure	Remarks
Elantra (MD/UD)	Trunk Latch Base Sub-Assembly	81231-3X010QQH		Electronic Type (KEY-LEVER "X")

Warranty Information:

Model	Op. Code	Operation	Op. Time	Casual Part	Nature Code	Cause Code
Elantra (UD)	41D029R1	Trunk Latch Base Sub Replacement	0.3 M/H	81231-3X010QQH	122	ZZ3
Elantra (MD)	41D029R2	Trunk Latch Base Sub Replacement	0.3 M/H	81231-3X010QQH	122	

NOTE 1: Submit claim on Claim Entry Screen as "Campaign" type.

NOTE 2: If a part is found in need of replacement while performing this recall and the affected part is still under warranty, submit a separate claim using the same repair order. If the affected part is out of warranty, submit a Prior Approval request for goodwill consideration prior to performing the work.

NOTE 3: This TSB includes Repair validation photos. Op times include VIN, Mileage and Repair validation photos as outlined in the Digital Documentation Policy.

NOTE 4: The incident parts are subject to callback through the normal Warranty Technical Center (WTC) parts return process. **Claim is subject to debit if the part is not returned.**

NOTE 5: Dealer will be reimbursed \$.25 through sublet under both op codes for any necessary clips requiring replacement.

TSB #: 24-01-025H Page 2 of 6

Service Procedure:

STUI

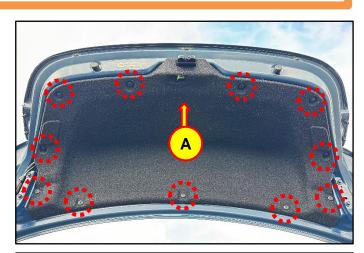

This TSB includes Repair validation photos. Refer to the latest Warranty Digital Documentation Policy for requirements.

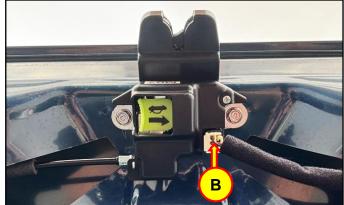

1. Detach the clips and remove the trunk lid trim (A).

NOTICE

Be careful to not damage any clips. Replace any broken clips (P/N: 86590-28000).

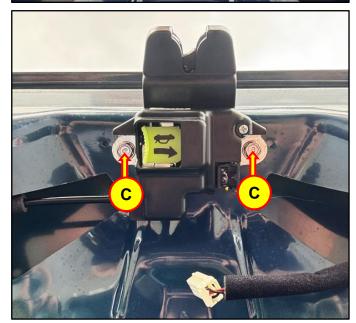

3. Remove the latch assembly mounting bolts (C).

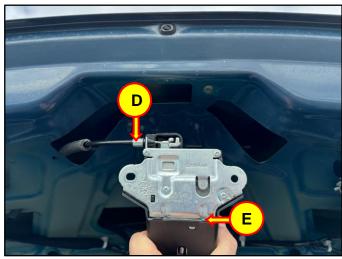

Bolt Tightening Torque:

lb-ft	5.1 - 8.0
lb-in	61 - 96
N.m	6.9 - 10.8

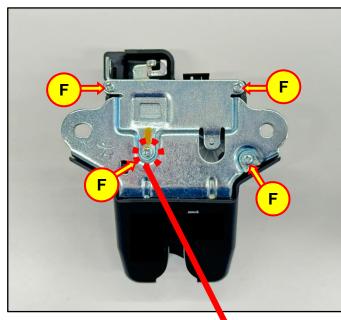

TSB #: 24-01-025H Page 3 of 6

4. Disconnect the cable (D) and remove the latch assembly (E).

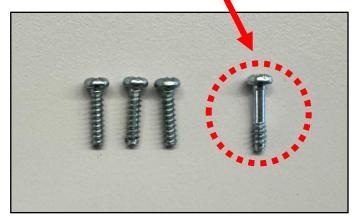

5. Remove the 4 mounting screws (F).

i Information

The bottom left screw is different from the other three screws. It has a longer unthreaded neck. Ensure this screw is installed in the same location during reassembly.

TSB #: 24-01-025H Page 4 of 6

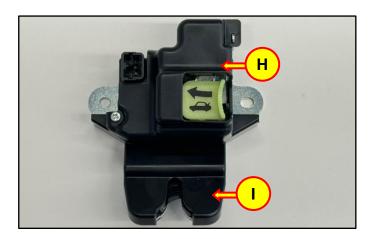

6. Separate the latch base sub assembly (G) from the latch actuator assembly (H).

i Information

The latch actuator assembly (H) will be reused.

7. Reassemble the trunk lid latch assembly by attaching the trunk latch actuator (H) to the new latch base sub assembly (I).

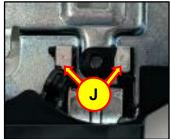

NOTICE

Be sure to not let any foreign material adhere to the terminals (J) between the new latch base sub assembly (I) and latch actuator assembly (H).

New Latch Base (I)

8. Reinstall all removed parts in reverse order of removal.

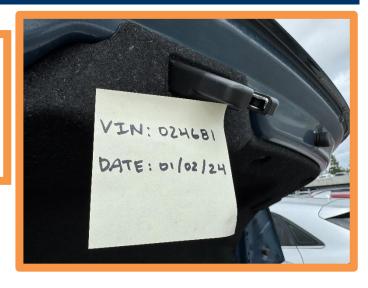

TSB #: 24-01-025H Page 5 of 6

9.

STUI

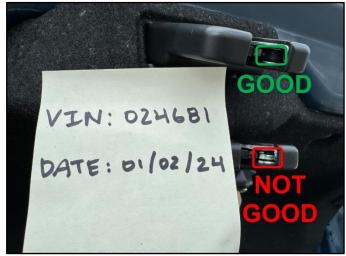

Using STUI, take a photo of the black part inside the trunk lid latch containing the new base with the last 6 digits of the VIN and the date of repair on a piece of paper. Upload the photo to STUI.

i Information

GOOD: Black plastic inside the latch exposed.

NOT GOOD: Metal inside the latch exposed.

- 10. Verify that the trunk and emergency release lever both operate properly.
- 11. The service procedure is now complete.
