First Name Last Name,

Our records currently indicate you have not had this recall I-24-03-AA completed on your affected vehicle.

Indian Motorcycle has determined that some Model Year 2019-2020 and 2022 FTR, Model Year 2020-2022 Challenger and Model Year 2022 Pursuit motorcycles, equipped with a specific Anti-Lock Brake System (ABS) module may experience inadvertent brake light illumination, which increases the risk of a crash and serious injury. This can occur without rider input during certain limited riding conditions when a momentary loss of wheel contact with the ground occurs.

If you need assistance contacting or locating an Indian Motorcycle dealer, visit <https://www.indianmotorcycle.com/en-us/dealer-locator/>.

THIS WORK WILL BE PERFORMED BY YOUR DEALER AT NO COST TO YOU!
