Details of the Recall

The Antilock Braking System (ABS) control module on your vehicle may experience a software malfunction that can disable the Electronic Stability Control (ESC) system. Failure of the ESC system can, in certain driving conditions, cause a vehicle crash without prior warning.

FCA US LLC will repair your vehicle free of charge (parts and labor). To do this, your dealer will update the ABS control module software. The estimated repair time is 30 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Jeep®, Dodge, RAM dealer right away to schedule a service appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
