IMPORTANT SAFETY RECALL

Brake Pedal Connection

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that a defect, which relates to motor vehicle safety, exists in certain [2019-2020 Model Year (GA) Alfa Romeo Giulia and 2019-2020 Model Year (GU) Alfa Romeo Stelvio] vehicles.

WHY DOES MY VEHICLE NEED REPAIRS?

The brake booster on your vehicle ^[1] may have been built with a loose connection between the input rod on the brake pedal to the brake booster, which can cause the brake pedal to detach from the booster. **A brake pedal detachment can cause a loss of brake function and increase the risk of a crash.**

Should this happen, the Electronic Park Brake, located on the center console, can be pulled up and held while driving to slow the vehicle to a controlled stop.

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

The remedy for this condition is not currently available. We are making every effort to finalize the remedy as quickly as possible, and will service your vehicle free of charge (parts and labor).

FCA US LLC will contact you again, by mail, with a follow-up recall notice when the remedy is available. Once you receive your follow-up notice, simply contact your Alfa Romeo dealer right away to schedule a service appointment ^[2]. Additional options for your next steps are included on the left side of this notification. We appreciate your patience.

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit www.fcarecallreimbursement.com to submit your reimbursement request online ^[3]. Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.
