1 WHY HAVE YOU RECEIVED THIS NOTICE?

In February 2024, owners of select 2024 Hayabusa motorcycles were notified that Suzuki was conducting an important safety recall campaign to inspect the brake pipe flare nuts on the ABS unit for tightness, and if necessary, retighten the flare nuts to the correct torque specification. **Our records indicate that your motorcycle has not had the recall repair completed yet.**

2 WHAT SHOULD YOU DO?

Please make an appointment to have your vehicle repaired **free of charge** at any Suzuki Dealer. **To locate your nearest Suzuki Dealer, go to www.suzukicycles.com and click on Find a Dealer at the top of the web page.** Provide the Vehicle Identification Number (VIN) from the front of this card to your Suzuki Dealer.

OPERATING YOUR MOTORCYCLE WITHOUT HAVING THIS RECALL PERFORMED MAY RESULT IN A LOOSENING OF A FLARE NUT. THIS MAY CAUSE BRAKE FLUID LEAKAGE, INCREASING BRAKING DISTANCE AND THE RISK OF A CRASH.

We care about your safety and ask that you immediately make arrangements to have this **FREE** repair performed.
