[REDACTED]

2022 JEEP CHEROKEE LATITUDE LUX 4X2

Recall information: 24B/NHTSA 24V-239

Visit recalls.mopar.com for more information or call the FCA US Recall Team at **1-800-853-1403**

Details of the Recall

The steering column control module (SCCM) on your vehicle may have been built with a detent spring that can prevent the turn signal lever from latching or staying latched for right hand turns. The turn signal lever assembly may self-cancel without steering wheel rotation or manual input. A turn signal unit that inadvertently self-cancels may result in surrounding drivers not receiving indication of the intent to change vehicle direction, which can cause a vehicle crash without prior warning

FCA US LLC will repair your vehicle free of charge (parts and labor). To do this, your dealer will inspect and, if necessary, replace the steering column control module. The estimated repair time is 45 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Jeep®, Dodge, RAM dealer right away to schedule a service appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
