Title

MINI Safety Recall 24V-302: High-Voltage Battery Housing

Text

This safety recall involves the high-voltage battery housing, which may not have been assembled according to specifications. Water could enter the high-voltage battery, which could lead to stalling and increase the risk of a crash. Over time, and in rare cases, this could also lead to a fire, even when the vehicle is not being driven. These conditions could increase the risk of injury. If you notice a warning message in the instrument cluster regarding the high-voltage battery, please contact an authorized MINI dealer as soon as possible to have the vehicle inspected and, if necessary, repaired.

Contact an authorized MINI dealer immediately to get your vehicle repaired for FREE. Dealer locator: miniusa.com/dealer.

Advise all drivers of this important information.
