Title

BMW Safety Recall 24V-513: Driver Air Bag

Text

In the event of a crash necessitating deployment of the driver's air bag, excessive internal pressure could cause the air bag to explode, resulting in metal fragments striking the driver or other occupants potentially resulting in serious injury or death.

There are currently 2 options available. You may visit your authorized BMW center. Or, for your convenience, we have also created a website where you can submit documents in order for us to determine if you need to have your driver air bag replaced. Please visit: bmwrecallsteeringwheel.expertinquiry.com and follow the instructions to submit images of your VIN and steering wheel. A BMW Representative will review your submission and then let you know if a FREE repair at an authorized BMW center is necessary.

Please contact the BMW Takata Recall Team by calling 1-844-695-8382 if you have any questions about this process or the recall.

Contact an authorized BMW center immediately to get your vehicle repaired for FREE. Dealer locator: bmwusa.com/dealer.

Advise all drivers of this important information.

For the latest updates to this recall, please visit bmwusa.com/recall.

Dealer locator: bmwusa.com/dealer.
