

I-24-07 Safety Recall DEX Alert and STOP Post

DEX Alert

Group: Alerts / Recall

Start Date: 8/2/2024

Removal Date: 11/2/2024

Title: Safety Recall I-24-07 Released

Alert Text:

STOP SALE I-24-07 HAS BEEN CONVERTED TO A SAFETY RECALL

Indian Motorcycle has determined that some Model Year 2024 Chieftain, Roadmaster, Springfield, Challenger, and Pursuit motorcycles may have been produced with a rear suspension pushrod, which does not meet design specifications. The rear suspension pushrod may buckle under load, which can result in pinching the main chassis harness, damage to the coolant reservoir, damage to the rear tire, or the rear of the motorcycle bottoming out under load, increasing the risk of a crash and serious injury.

To address this concern, Indian Motorcycle has released this Safety Recall with instructions to replace the rear suspension pushrod.
