Details of the Recall

Your vehicle may have been built with the incorrect tail lamps. Reduced visibility of tail lamps could result in approaching vehicles being unaware of intent to change direction or intent to stop, which may cause a vehicle crash without prior warning.

FCA US LLC will repair your vehicle free of charge (parts and labor). To do this, your dealer will replace the tail lamps. The estimated repair time is 30 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Jeep®, Dodge or RAM dealer right away to schedule a service appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
