Details of the Recall

The 2nd row child tether anchor on your vehicle may have been built with defective welds, which may result in reduced occupant restraint capabilities. A tether anchorage separating from the vehicle seat may increase the risk of injury to the occupant of the child seat in a crash.

FCA US LLC will repair your vehicle free of charge (parts and labor). To do this, your dealer will reinforce the existing child tether anchor structure on the seat back frame. The estimated repair time is 20 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Jeep®, Dodge, RAM dealer right away to schedule a service appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
