Details of the Recall

Your vehicle may have been built with a brake pedal assembly that may collapse while braking. A brake pedal that collapses while driving prevents the driver from being able to activate the service brakes which can cause a vehicle crash without warning.

Should this happen, the Electronic Park Brake, located on the center console, can be pulled up and held while driving to slow the vehicle to a controlled stop. Additionally, the Automatic Emergency Braking system, unless deactivated, will intervene without further action from the driver when it detects a collision is imminent.

FCA US LLC will repair your vehicle free of charge (parts and labor). To do this, your dealer will reinforce the brake pedal arm by adding a bolt and nut. The estimated repair time is 30 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Jeep®, Dodge, RAM or Alfa Romeo dealer right away to schedule a service appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
