25V-094

Subject: Missing Warning for Turn Signal Failure/FMVSS 108

Dear Mr. Single:

This letter serves to acknowledge Ford Motor Company's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

FORD/MAVERICK/2022-2024

Mfr's Report Date: February 14, 2025

NHTSA Campaign Number: 25V-094

Components:

ELECTRICAL SYSTEM:BODY CONTROL MODULE:SOFTWARE
EXTERIOR LIGHTING:TURN SIGNAL

Potential Number of Units Affected: 1,635

Problem Description:

Ford Motor Company (Ford) is recalling certain 2022-2024 Maverick vehicles previously repaired incorrectly under recall number 23V-848. In the event that one of the rear turn signals stops working, the vehicle will not adjust the turn signal flash rate frequency to warn the driver that a turn signal has failed. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard number 108, "Lamps, Reflective Devices, and Associated Equipment."

Consequence:

A nonfunctioning exterior turn signal cannot notify other drivers that the vehicle is turning, increasing the risk of a crash.

Remedy:

Dealers will update the body control module software, free of charge. Owner notification letters are expected to be mailed March 31, 2025. Owners may contact Ford customer service at 866-436-7332. Ford's number for this recall is 25C04.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 888-327-4236 (TTY 888-275-9171) or go to [nhtsa.gov](https://www.nhtsa.gov).

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

As stated in 49 U.S.C. § 30118(f), submission of eight consecutive quarterly reports followed by three annual reports is required. As described in 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter. The first of three consecutive annual status reports will be due on, or before, 1 year after the eighth quarterly report was submitted.

Ford Motor Company's contact for this recall will be Dusty Gardner who may be reached by email at dusty.gardner@dot.gov. We look forward to working with you.

Sincerely,

Alex Ansley
Chief, Recall Management Division
