Dear Mr. Cochran:

This letter serves to acknowledge General Motors, LLC's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

**Makes/Models/Model Years:**  
CADILLAC/LYRIQ/2023-2025

**Mfr's Report Date:** April 10, 2025

**NHTSA Campaign Number:** 25V-232

**Components:**  
SUSPENSION:FRONT:STABILIZER BAR

**Potential Number of Units Affected:** 17

**Problem Description:**

General Motors LLC (GM) is recalling certain 2023-2025 Cadillac LYRIQ vehicles. The left or right front stabilizer bar bracket bolts may have been improperly tightened, which can allow the bolts to loosen and separate from the vehicle frame. A detached stabilizer bar or bracket can damage the vehicle's high voltage cables or EV battery coolant lines.

**Consequence:**

Damaged cables or coolant lines can result in a vehicle shutdown, causing a loss of drive power and increasing the risk of a crash.

**Remedy:**

Dealers will inspect and tighten the left and/or right stabilizer bar bracket bolts, as necessary, free of charge. Owner notification letters are expected to be mailed May 26, 2025. Owners may contact Cadillac customer service at 1-800-333-4223. GM's number for this recall is N252494190.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-888-275-9171) or go to [www.safercar.gov](http://www.safercar.gov).
