25V-260

Subject: Loss of Steering from Front Control Arm Separation

Dear Mr. Single:

This letter serves to acknowledge Ford Motor Company's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

FORD/BRONCO/2025

Mfr's Report Date: April 18, 2025

NHTSA Campaign Number: 25V-260

Components:

SUSPENSION:FRONT:CONTROL ARM:UPPER BALL JOINT

Potential Number of Units Affected: 2

Problem Description:

Ford Motor Company (Ford) is recalling certain 2025 Bronco vehicles. The front upper control arm ball joint nut may be missing or tightened improperly, allowing the front upper control arm to detach from the knuckle assembly.

Consequence:

A detached control arm can cause a loss of vehicle steering and control, increasing the risk of a crash.

Remedy:

Owners are advised not to drive their vehicles until they have been repaired. Dealers will inspect and verify that the ball joint fastener is tightened properly. If a fastener is loose or missing, the dealer will replace the ball joint and knuckle assembly. Repairs will be performed free of charge. Owner notification letters are expected to be mailed in April 2025. Owners may contact Ford Customer Service at 1-866-436-7332. Ford's number for this recall is 25S40.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 888-327-4236 (TTY 888-275-9171) or go to [nhtsa.gov](https://www.nhtsa.gov).

We have received Ford's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in 49 U.S.C. § 30118(f), submission of eight consecutive quarterly reports followed by three annual reports is required. As described in 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter. The first of three consecutive annual status reports will be due on, or before, 1 year after the eighth quarterly report was submitted.

Ford Motor Company's contact for this recall will be Dusty Gardner who may be reached by email at dusty.gardner@dot.gov. We look forward to working with you.

Sincerely,

Alex Ansley
