Subject: Vehicle Lighting Failure

Dear Brad Wyatt:

This letter serves to acknowledge Toyota Motor Engineering & Manufacturing's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

TOYOTA/TUNDRA/2022-2025
TOYOTA/TUNDRA HYBRID/2022-2025

Mfr's Report Date: May 15, 2025

NHTSA Campaign Number: 25V322

Components:

EXTERIOR LIGHTING:BACK UP LIGHTS

Potential Number of Units Affected: 443,444

Problem Description:

Toyota Motor Engineering & Manufacturing (Toyota) is recalling certain 2022-2025 Toyota Tundra and Tundra Hybrid vehicles. Moisture may enter the reverse light assemblies and cause a light failure.

Consequence:

Reverse light failure may reduce visibility, and not alert pedestrians and other drivers that the vehicle is backing up, increasing the risk of a crash.

Remedy:

Dealers will replace both reverse light assemblies and repair the wire harnesses as necessary, free of charge. Owner notification letters are expected to be mailed June 30, 2025. Owners may contact Toyota's customer service at 1-800-331-4331. Toyota's numbers for this recall are 24TB06 and 24TA06.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-888-275-9171), or go to www.nhtsa.gov.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in 49 U.S.C. § 30118(f), submission of eight consecutive quarterly reports followed by three annual reports is required. As described in 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter. The first of three consecutive annual status reports will be due on, or before, 1 year after the eighth quarterly report was submitted.

Toyota Motor Engineering & Manufacturing's contact for this recall will be Debora Crews who may be reached by email at DEBORA.CREWS@DOT.GOV. We look forward to working with you.

Sincerely,

Alex Ansley
