Descriptive Information : The recall population was determined when a letter from Morryde (the mfg of the defective part) notified us of the issue with the item. At that point, a search performed to identify the cocahes we use this part on was identified to develop scope. The recalled product differs from the non recalled product becuae the product not being recalled either hasn't been built (which they will be built with the new and correct part) or was placed on hold and fixed prior to shipping. Three are a total of 32 RVs under this recall.

Description of Defect :

Description of the Defect : Morryde recall # 25E026: the receiver for the step that is installed on to the bracket was not installed with the required thread locking compound.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : The step could come loose from the bracket and cause a fall causing injury.

Description of the Cause : The part built (the receiving bracket for the step) was not built properly with the locking compound.

Identification of Any Warning that can Occur : A loose step receiver bracket.

Involved Components :

Component Name 1 : Step Bracket

Component Description : Bracket - Mounting - Step - Folding Patio

Component Part Number : Vendor p/n: STP57-515 (Alliance P/N: 22107)

Supplier Identification :

Component Manufacturer

Name : MORryde

Address : 1966 Sterling Avenue
Elkhart Indiana 46515

Country : United States

Chronology :

On 4/16/2025 I received a recall notice from Morryde related to these step brackets. Some clarifying question on their information was sent back the next day (part number discrepancies and lack of granularity) to which they answered. All product produced with this bracket was put on hold and anything that wasn't already shipped was fixed (4/17 - 4/18 - 4/21). A scope was able to be developed which was submitted and recalled.

Description of Remedy :

Description of Remedy Program : The remedy is to replace the step bracket with a properly built bracket.

How Remedy Component Differs from Recalled Component : The remedied RVs will have a bracket that was built with the thread locking compound that will prevent the bracket from coming loose.

Identify How/When Recall Condition was Corrected in Production : the recall condition will be corrected because the new parts coming in will be built properly by Morryde. The properly built brackets will be used in place of defective ones that we've received in the past.
