Part 573 Safety Recall Report

25V855

Manufacturer Name: Lucid USA, Inc.

Submission Date: Dec 10, 2025

NHTSA Recall No.: 25V855

Manufacturer Recall No.: SR-25-05-0

Manufacturer Information

Population

Manufacturer Name: Lucid USA, Inc.

Address: 7373 Gateway Blvd.
Newark CA, 94560

Total number of potentially involved: 66

Estimated percentage with defect: 39.4%

Vehicle Information

Vehicle 1: 2026-2026 Lucid Gravity

Product Category: Light Vehicles

Product Type: Multipurpose Passenger Vehicle

Fuel / Propulsion: Electric Battery Power

Production Dates: Sep 08, 2025 - Sep 22, 2025

Number of potentially involved: 66

Descriptive Information:

Lucid has determined that certain Lucid Gravity 2026 model year vehicles may have incorrect front seat backrest covers, which could prevent the front seat side airbags from deploying correctly, increasing the risk of injury during a crash.

Lucid's front seat backrest cover supplier identified a batch of seat backrest covers that it produced as possibly having incorrect right/left labels, indicating driver or passenger location. The recall population consists of all customer vehicles with seat backrest covers from that batch. From manufacturing records, Lucid identified 66 suspect customer vehicles that may have the defect. Based on vehicle inspections of suspect factory and inventory vehicles, Lucid estimates that approximately 39.4% of the recall population would have the defect.

Recalled vehicles have seats with seat backrest covers from the batch that include incorrect labels. Lucid also inspected vehicles in its possession with seats that did not have suspect seat backrest covers and confirmed that none of them have the defect.

Defect / Noncompliance Description

Description of the defect or noncompliance:

Vehicles in the recall population may have incorrect seat backrest covers on the front seats, preventing the front seat side airbags from deploying correctly.

Part 573 Safety Recall Report**25V855**

FMVSS1:

FMVSS2:

Description of the safety risk, including crash, fire, death, injury:

An incorrect front seat backrest cover could cause the side airbag to deploy incorrectly, increasing the risk of injury during a crash.

Description of the cause:

Some front seat backrest covers were mislabeled as left or right during the seat cover manufacturing process, causing some front seats to be assembled with incorrect seat backrest covers.

Identification of any warning that can occur:

None

Chronology

On July 11, 2025, Piston Interiors LLC began manufacturing seat covers for Lucid. The seat covers were used by Lucid's seat manufacturer, Hyundai Transys, who notified Lucid on October 27, 2025 that they had discovered a mislabeled seat backrest cover during seat assembly. A driver-side seat backrest cover was labeled as a passenger-side seat backrest cover.

Between October 27 and October 30, 2025 the three parties held joint meetings, found another mislabeled seat backrest cover, identified a batch of seat backrest covers that could have been mislabeled, established containment at all three locations and established a root cause for the labeling issue. Starting October 27, Piston implemented an on-site 200% production inspection.

On October 31, Lucid issued a stop sale and began to inspect all Piston-made seat backrest covers at the factory. By November 3, the three parties identified a suspect population of 113 vehicles with the potential for mislabeled seat backrest covers. On the same day, Lucid's Product Safety Working Group (PSWG) began to investigate the issue. During its investigation, the PSWG determined that 66 of the 113 suspect vehicles had previously been delivered to customers.

By November 10, 2025, the seat cover manufacturer had implemented on-site production inspections using a camera system that prevents labels from being printed for the incorrect seat backrest cover. Lucid visited the seat cover manufacturer's location and validated the system on November 11.

On November 13, 2025 Lucid completed a vehicle inspection campaign at the factory of 754 vehicles outside the suspect population and found 0 vehicles with incorrect front seat backrest covers.

On December 3, 2025, the PSWG briefed this issue to Lucid's Product Safety Executive Council (PSEC). The PSEC determined that there was an unreasonable risk to safety for Lucid Gravity vehicles suspected of having mislabeled seat backrest covers and that a recall was required.

Related NHTSA Recall Number:

Description of Remedy

Remedy Type: Inspect, Replace

Part 573 Safety Recall Report

25V855

Consumer Advisories: Do Not Drive Park Outside

Description of remedy program:

The remedy for this recall involves inspection of the vehicle's front seats and replacement of any seat backrest covers that are incorrect.

Lucid will reimburse owners for costs an owner reasonably incurred to obtain a remedy for this safety defect during the period starting from initial vehicle delivery through 10 days after Lucid's mailing of the owner notification letter concerning this defect. If an owner has such a claim for pre-notification reimbursement, they may contact Lucid Customer Care at 1-888-99-LUCID or 1-888-995-8243.

How remedy component differs from recalled component:

Vehicles included in the recall have been identified as having seats that were assembled with a batch that included some mislabeled right and left seat backrest covers. All other seats were assembled with seat backrest covers with proper labels. The seat cover manufacturer has instituted a 200% traceability inspection to identify similar patterns going forward and has implemented a camera-based system to confirm correct seat cover labeling. Remedy components have either been visually confirmed to be correct or were inspected by the new camera-based system.

Identify how/when recall condition was corrected in production:

Starting October 27, 2025, the seat cover manufacturer instituted 200% traceability inspections to identify and prevent similar issues going forward. Starting November 10, the seat cover manufacturer began using camera-based inspection equipment.

Reimbursement Plan

Description of reimbursement program:

Lucid will reimburse owners for costs an owner reasonably incurred to obtain a remedy for this safety defect during the period starting from initial vehicle delivery through 10 days after Lucid's mailing of the owner notification letter concerning this defect. If an owner has such a claim for pre-notification reimbursement, they may contact Lucid Customer Care at 1-888-99-LUCID or 1-888-995-8243.
