

SAFETY RECALL NOTICE

March 17, 2025

Dear Valued Retailer,

Dorel Juvenile Group, Inc. (Dorel) is preparing to conduct a voluntary safety recall of all fashions from all manufacture dates of the following product model families:

- BC159 Safety 1st Comfort Ride 3-in-1 Harness Booster
- BC163 Safety 1st Boost & Go 3-in-1 Harness Booster
- BC167 Disney Baby MagicSquad 3-in-1 Harness Booster
- BC181 Safety 1st Boost & Go Essential 3-in-1 Harness Booster

The height range on the forward-facing installation label on the product incorrectly states a child between 43-57 in. (110.1-144.8 cm) can use the internal harness system. Even though the instruction manual included with the restraint system correctly states the height rating to be 34-49 in. (87-125 cm), this discrepancy is a noncompliance with FMVSS No. 213. If a child taller than 49 inches were to ride in the internal harness system of this child restraint, the child could be injured in a crash. Dorel is working with the National Highway Traffic Safety Administration (NHTSA) to announce the recall and provide a new label with the correct height range to registered owners. The model numbers impacted by this recall are as follows:

BC159 Safety 1<sup>st</sup> Comfort Ride  
3-in-1 Harness Booster  
Models: BC159GKO, BC159HAA  
BC159HBE, BC159HBED, BC159HBH
