

MACK TRUCKS

SAFETY RECALL ALERT

Subject: Safety Recall SC0473, Air Tank Volume 7L
Recall Number: SRA-M473
Date: January 22, 2025
Applicable Markets: U.S. Canada Export

Description

The air volume calculation for system air on certain Mack models may be below the 12 times combined volume of all service brake chambers, as required per the FMVSS 49 CFR571.121. The risk is a vehicle crash that may result in personal injury.

Vehicles will be recalled and additional air tank volume will be added to meet FMVSS 121 requirements.

Model and Model Years Affected

- Certain 2024-2025 Mack Pinnacle vehicles manufactured December 21, 2023 through December 18, 2024.

Vehicle Quantities

- 21 vehicles (21 US)

Dealer Responsibilities

- The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.
- Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Notification Release Schedule

- Vehicle list will be posted on the Trucks Dealer Portal on or before January 28, 2025.
- Owner notification letters will be released on or before March 17, 2025.

Contact
