

MACK TRUCKS

SAFETY RECALL ALERT

Subject: Safety Recall SC0474, Missing ABS Warning Lamp and Circuitry

Recall Number: SRA-M474

Date: January 24, 2025

Applicable Markets: U.S. Canada Export

Description

Certain Mack MR and TE rigids were built as towing vehicles and do not have a driver indicator lamp/circuit to communicate and signal when there is an antiskid braking system (ABS) malfunction on one or more towed vehicle(s), as required by FMVSS121 S5.1.6.2(b).

In the event of an anti-skid braking system (ABS) event, a towed anti-skid braking equipped trailer may not respond correctly increasing the risk of a crash.

Vehicles will be recalled and Anti-skid braking (ABS) warning lamp/circuitry will be added to the vehicles to ensure proper function of anti-skid braking (ABS) equipped trailer.

Model and Model Years Affected

- Certain 2010-2025 Mack MRU and TerraPro vehicles manufactured March 12, 2009 through October 7, 2024.

Vehicle Quantities

- 146 vehicles (142 US and 4 Canada)

Dealer Responsibilities

- The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.
- Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Notification Release Schedule

- Vehicle list will be posted on the Trucks Dealer Portal on or before January 30, 2025.
- Owner notification letters will be released on or before March 21, 2025.

Contact
