General Motors is releasing Safety Recall N242480630 today.

This is a phased launch.

Remedy software is ONLY available for:

2020-2021 Cadillac CT4 and CT5

2019 Cadillac CT6 equipped with engine RPO LSY

These vehicles were placed in "Open" status in IVH on March 6, 2025.

Important: If the status in IVH reads "Incomplete – Remedy Not Available", the repair cannot be performed. Any attempt to submit the claim will be rejected.

It is a violation of federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification until the defect is remedied.

What Should Dealers Do: Dealers should review IVH or the Dealer Maxis reports for open VINs in their inventory. Dealers can view the attached bulletin and it will also be displayed in Service Information tomorrow.

A Stock VIN list is not included as our records show there are no vehicles in dealer new inventory.
