

DATE: April 2025
TO: Micro Bird Distributors
SUBJECT: Recall 24-113-FUS / NHTSA Recall 25V190

This notice is sent to you in accordance with the requirements of the Motor Vehicle Safety Act. This is to inform you that your school vehicle(s) may contain a defect that could affect the safety of a person.

Micro Bird has decided that certain 2012, 2015-2019 and 2024 school vehicles fail to conform to Federal Motor Vehicle Safety Standard No. 207, "Seating Systems."

In the recalled school vehicles, some seats may have not been attached sufficiently, and in consequence, they may not comply with Federal Motor Vehicle Safety Standards number 207, "Seating systems". If a seat is not sufficiently retained, it may at least partially detach from the vehicle in case of impact, increasing the risk of injury.

To complete this recall, owners will contact you to make an appointment to have their vehicle(s) corrected. They will identify the vehicle(s) to correct so you can determine the corresponding floor plan and can confirm the time required for the correction and order the parts necessary for the correction.

We request that you apply for reimbursement via the GOLS claim system with detailed invoices and a list of repaired vehicles so we can update our files.

Micro Bird Corporation will provide correction instructions and parts, as well as reimburse labor to mitigate this recall at no charge.

Consult the correction instructions to evaluate the allotted time to correct each vehicle, based on their floor plan.

Important: We want to remind you that recalled vehicles must be corrected before you sell, lease, or deliver them; vehicles returned at the end of a lease must be corrected before they can be offered for sale as used vehicles.

We apologize for any inconvenience this situation may cause and we thank you for your cooperation.
