Dear Valued Dealer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Spartan RV Chassis, a brand of Shyft Group, Inc. and the Jayco motorized division have decided that a defect, which relates to motor vehicle safety, exists in certain 2024-2025 Entegra Coach Anthem, Aspire and Reatta XL Class A motorhomes. The affected vehicles are built on certain 2022 through 2025 model year K2 model Spartan RV vehicles. These vehicles are equipped with an L9 engine and remote 2-stage fuel filter supplied by Cummins, Inc.

Reason for this recall

The remote fuel filter hoses installed on the affected engines can become separated from the fuel fitting resulting in fuel leaks and lack of fuel supply to the engine. A fuel hose that becomes disconnected will result in an engine stall, which increases the risk of a crash. A fuel leak in the presence of an ignition source may increase the risk of a fire.

Recall Remedy

Cummins will replace the fuel hoses with hoses that have improved connector crimps. The repair may take up to 2 hours to complete. However, the service provider may need the vehicle longer due to scheduling. The remedy will be provided at no charge. Cummins's number for this recall is C7111.
