Problem Description
FMVSS No. 135; Light vehicle brake systems & FMVSS No. 101; Controls and displays

Government regulations require that either the common word "BRAKE" or other prescribed, specific icons are shown in text form for brake system malfunctions. It is possible that certain vehicles included in this recall do not have the correct data container to fulfill the regulatory requirement. Telltales that do not provide the prescribed warning according to regulations may cause driver confusion and, consequently lead to the driver ignoring the warning. If a brake warning is ignored and the vehicle continues to be driven, it can increase the risk of a crash.

CANADA
Problem Description
CMVSS No. 101 Controls, Tell-tales, Indicators and Sources of Illumination & CMVSS No. 135 Light Vehicle Brake Systems

Government regulations require that a red or red-orange-coloured tell-tale, represented by an exclamation mark inside of a circle surrounded by two smaller arcs on each side, illuminate in the event of a brake system malfunction. In the affected vehicles, this tell-tale is coloured amber instead of red or red-orange and does not comply with regulatory requirements.

In the event of a brake system malfunction, however, the driver will also receive a textual warning message advising them of a brake system malfunction, should one occur.

Owners are generally advised that telltales that do not provide the prescribed warning according to regulations may cause driver confusion and, consequently, lead to the driver ignoring the warning. If a warning is ignored and the vehicle continues to be driven, it can increase the risk of a crash.

Precautions: If a warning is ignored and the vehicle continues to be driven, it can increase the risk of a crash. As a reminder, the vehicle owner’s manual contains important information regarding a vehicle’s warning lights and messages. We encourage anyone who drives the vehicle to review the owner’s manual to become familiar with the types of vehicle indicators, warnings and messaging they may see.
