### Advance Notice – Safety Recall 15ZK / Cylinder Head Cover Screws

**This notice is for:** All Dealer Personnel

**Date:** May 13, 2025

**Issue:** Over time, the cylinder head cover screw(s) may loosen. If this occurs, engine oil may leak from the cylinder head cover screw hole(s). If the engine oil were to come into contact with certain hot parts of the engine, a fire could occur.

Early engine oil leaks are difficult to detect, but in advanced cases and with a hot engine running, an unpleasant odor may be noticed and/or smoke may appear in the engine compartment if the defect condition exists.

If smoke is noticed in the engine compartment, the vehicle should be safely parked immediately. Owners with vehicle concerns are advised to contact an authorized Audi dealer to have the vehicle diagnosed without delay.
