

MACK TRUCKS

SAFETY RECALL ALERT

Subject: Safety Recall SC0478, MMD Bench Seat Center Seat Belt Incorrect Routing
Recall Number: SRA-M478
Date: May 22, 2025
Applicable Markets: U.S. Canada Export

Description

Certain Mack MD vehicles built with seatbelts where the belt routing is incorrect on the tongue (latch plate) assembly. This would prevent the seat belt from performing correctly.

In the event of a crash, the incorrectly routed seatbelt would not perform as designed and this could increase the risk of an injury.

The seatbelt assembly will be inspected for proper routing and replaced as necessary.

Model and Model Years Affected

- Certain 2026 Mack MD vehicles manufactured March 11, 2025 through April 8, 2025.

Vehicle Quantities:

- 42 (42 US)

Dealer Responsibilities

- The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.
- Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Notification Release Schedule

- Vehicle list will be posted on the Trucks Dealer Portal on or before May 26, 2025.
- Owner notification letters will be released on or before July 18, 2025.

Contact
