

MAZDA DEALER EMAIL

DATE: Wednesday, June 11, 2025
FROM: Carol Whitlock, Program Manager, Quality Campaigns, Parts Operations
ATTENTION: Mazda General, Parts and Service Managers
SUBJECT: Dealer Parts Push Shipment for Recall 7425E
SUMMARY: Parts push shipment for MX-5 VINs affected by Recall 7425E -
Traction/Stability Light May Fail to Illuminate - affecting 2024-2025MY MX-5
Miata vehicles

On Tuesday, June 10th, Mazda processed parts push shipments of Dynamic Stability Control (DSC) units for MX-5 VINs arriving at your dealership and affected by this recall, as well as any customer vehicles having the concern. The DSC part number is N4Y0-43-7A0E.

In eMDCS you can reference the Customer Purchase Order number for these as "R7425E PUSH 1". Mazda recommends the push parts are prioritized for affected inventory units, incoming port shipments and customers demanding a repair prior to the owner mailing.

Please note: Only dealerships with affected VINs will receive a push shipment.

All affected MX-5s arriving from the port will have the following notice on the dash.

**DSC
REQUIRED BY
DEALER PRIOR TO
RETAIL**

Before starting the repair please confirm the vehicle has Recall 7425E listed in Warranty Vehicle Inquiry.

Currently, Mazda is working with the supplier in Japan to build PDC stock to support a full customer launch of this recall by July 21, 2025. While the initial supply is arriving, we cannot support additional dealer orders. Unfortunately, at this time there is an insufficient supply of DSC units to support the repair of all dealer inventory VINs. The supply of parts from the supplier will be very tight and extra parts will have limited availability before the owner letter mails. In late-July and before the owner mailing, Mazda will send another push shipment of DSC units.

For parts questions or concerns related to the push shipment, contact the Corporate Dealer Assistance Group at corpdag@mazdausa.com or by calling (877) 727-6626 Option 2.

Please make sure the appropriate staff at your dealership are aware of these orders.

Regards,
Carol Whitlock
Program Manager, Quality Campaigns
