Re: Stop Sale/Safety Recall: 2025 CR-V FHEV Fuel Feed Hose

On June 5, 2025, American Honda notified NHTSA of a **stop sale** and **safety recall** for 6 model year 2025 CR-V FHEV vehicles. Due to a manufacturing error, the fuel feed hose and connect cover may not have been installed correctly, which may lead to fuel leakage. A fuel leak in the presence of an ignition source could result in a fire. **Refer to your eResponsibility report or perform an iN VIN status inquiry to determine which units in your inventory are affected.**

**REPAIR**

Replace the fuel feed hose and connect cover.

**PARTS**

Parts will be available for controlled ordering using a valid VIN. Due to the small number of affected vehicles, confirm the vehicle is at your dealership or is scheduled for repair prior to ordering any replacement parts.

**TOOLS**

There are no new special tools needed for this recall.

**SERVICE BULLETIN**

Service Bulletin 25-059, *Safety Recall: 2025 CR-V AWD Sport Touring Hybrid Fuel Feed Hose* posted to the Service Information System (SIS) as of June 6, 2025. It includes parts, repair and warranty claim information related to this recall.

**CUSTOMER NOTIFICATION**

American Honda expects to begin customer notification in mid-July 2025.

As always, perform an iN VIN status inquiry for all vehicles passing through your dealership to determine eligibility for any open campaigns.
