

# MACK TRUCKS

## SAFETY RECALL ALERT

---

**Subject:** Safety Recall SC0480, Improper Power Cable Routing Clearance  
**Recall Number:** SRA-M480  
**Date:** June 10, 2025  
**Applicable Markets:**  U.S.  Canada  Export

---

### **Description**

Certain Mack Heavy Duty vehicles may have been built with a specific arrangement of power cables where the 12-volt positive can encounter the 48-volt negative terminal and potentially cause chaffing and or then short.

If the battery cables rub on the terminal there is the risk of an electrical short which may disable power to the engine or create the risk of fire.

The power cables will be re-routed to ensure proper clearance and routing between the cables.

### **Model and Model Years Affected**

- Certain 2025 Mack AN and GR model vehicles manufactured April 9, 2024 through June 26, 2024.

### **Vehicle Quantities:**

- 8 (8 US)

### **Dealer Responsibilities**

- The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.
- Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

### **Notification Release Schedule**

- Vehicle list will be posted on the Trucks Dealer Portal on or before June 13, 2025.
- Owner notification letters will be released on or before August 8, 2025.

### **Contact**
