

## IMPORTANT SAFETY RECALL

NHTSA Recall No. **25V-412**

August 4, 2025

VIN:

*This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.*

Bontrager Outdoors has decided that a defect, which relates to motor vehicle safety, exists in certain model 2025 Bontrager 7ROD and Skinny Guy Camper 7LT campers built between July 30<sup>th</sup>, 2024, and May 16<sup>th</sup>, 2025, the smoke detectors installed are not a combination detector for both smoke and Carbon Monoxide.

The repair is to install a new Carbon Monoxide detector, free of charge. The new Carbon Monoxide detector will be shipped to the dealer that will be performing the repair. The repair will take approximately 12 minutes to complete.

**Reason for the recall:** The smoke detector should be a Smoke/ Carbon Monoxide detector. If the smoke detectors installed are not a combination detector, the occupants will not be alerted to elevated levels of carbon monoxide, increasing the risk of injury.

If you have previously paid for a repair that addresses the issue described in this letter, you still need to have this recall performed to ensure that the correct procedures were followed. You may be eligible for a refund from a previously paid repair. Refunds will be provided for services related to any repairs to or replacement of your Smoke/Carbon Monoxide detectors.

If you are a lessor of vehicles which are affected, it is required that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

**What we need you to do:** Please contact your selling dealer as soon as possible to schedule an appointment to have the recall performed.
