

MACK TRUCKS

SAFETY RECALL ALERT

Subject: Safety Recall SC0481, MMD Electric MVSS 124
Recall Number: SRA-M481
Date: June 25, 2025
Applicable Markets: U.S. Canada Export

Description

Certain Mack MD (Electric) vehicles may not be compliant with FMVSS 124.

In the event of a Vehicle Controller Area Network (CAN) failure, the throttle signal from the electro mobility control unit would retain the last known throttle setting and would not return idle (except during service brake application) increasing the risk of a crash.

The control unit will be reprogrammed, with software which makes the vehicle compliant with FMVSS 124.

Model and Model Years Affected

- Certain 2024 through 2025 Mack MD (Electric) model vehicles manufactured June 22, 2023 through February 17, 2025.

Vehicle Quantities:

- 162 (148 US and 14 Canada)

Dealer Responsibilities

- The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.
- Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Notification Release Schedule

- Vehicle list will be posted on the Trucks Dealer Portal on or before June 27, 2025.
- Owner notification letters will be released on or before August 19, 2025.
