Re: Improperly Torqued Roll Up Door Operator Bolt Recall

«TO»

This notice is being sent in accordance with the National Traffic Motor Vehicle Safety Act.

Great Dane LLC ("Great Dane") has decided that a defect, which relates to motor vehicle safety, exists in certain 2026 Champion dry vans. The trailers were manufactured in Great Dane's Terre Haute, IN manufacturing facility, and were equipped with roll up doors utilizing a ratcheting spring winder. The affected vehicles may have improperly torqued bolts securing the operator center shaft to the ratchet mechanism.

This defect could lead to rapid, unintended roll up door closure, a door that will not close, or is difficult to open, and may increase the likelihood of severe injury or death. Great Dane has produced a field inspection and repair procedure to address this defect. Great Dane will pay authorized repair agents to retorque roll up door operator bolts on the suspect trailers. These repairs will be covered under Great Dane's warranty program. It is estimated that this inspection will take 30 minutes per trailer.

If you had this repair performed before you received this letter, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall. For more information contact Great Dane Customer Service at (877) 369-3493.

Federal regulations require that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

If you conclude that Great Dane LLC has not enabled you to remedy this condition without charge and/or in a reasonable time, a complaint may be submitted to the:

Administrator
National Highway Traffic Safety Administration
1200 New Jersey Avenue SE
Washington, DC 20590

-or-

Call the toll-free Vehicle Safety Hotline: 1-888-327-4236; (TTY: 800-424-9153) or go to
