Substantial civil penalties apply to violations of this law.”

Forest River has decided that a safety defect exists in certain 2025-2026 East to West Entrada, Forester, Sunseeker, Solera, Freelander, and Leprechaun Class C Motorhome Recreational Vehicles. Forest River is recalling the defect model(s) to ensure the safety of our future retail consumers and your dealership. Forest River apologizes for any inconvenience this action may cause your dealership; however, safety, continued satisfaction, and our commitment to building great products are of the utmost importance to Forest River.

#### **The designated Date range of production is:**

#### **WHAT IS THE DEFECT?**

The fuel line extension may have been inconsistent crimps at the barb fittings of its connectors which can cause the fittings to become loose and detach.

#### **EVALUATION OF RISK:**

If a fuel line detaches, this may allow fuel to openly spray. This condition may lead to fire and property damage.

#### **SERVICE PROCEDURE:**
