RE: IMPORTANT SAFETY NOTIFICATION – **Recall 25V535**

To: Dealers

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

The Aluminum Trailer Company (ATC) has decided that a defect, which relates to motor vehicle safety, exists in any trailer with a MB Quart radio installed that was manufactured from May 2022 to July 2025

ATC has determined that the MB Quart radio produced by Maxxsonics could get hot enough to cause a fire as well as cause the speakers to distort and overheat causing a fire risk. Safety of all past and present ATC trailers is our top priority.

Owners will be notified by mail about the recall. Maxxsonics will supply parts and instructions for repair. We estimate the time to perform the labor required to correct the defect to be .15 hours. There is no cost to owners for this recall. ATC will reimburse any customer providing sufficient documentation who incurred costs to repair the defect before our notification was sent.

Please be reminded that it is a violation of Federal law for you to sell or lease the trailers covered by this notification until this recall has been performed on these trailers. Substantial civil penalties apply to violations of this law.

Your assistance with this recall is appreciated. Should you have any questions or concerns, please contact Customer Support at The Aluminum Trailer Company by mail, P.O. Box 396 Nappanee, IN 46550; by phone (877) 441-2440, or electronic mail [customersupport@atctrailers.com](mailto:customersupport@atctrailers.com).

Sincerely,

The Aluminum Trailer Company
