Subject: N252514930 - Safety Recall
Fire Risk During Fuel Fill

Models: 2023-2026 Chevrolet Corvette Z06 w/LT6 Engine
2025-2026 Chevrolet Corvette ZR1 w/LT7 Engine

General Motors is releasing Safety Recall N252514930 today.

THIS IS A PHASED LAUNCH.

Parts are available for the 2026 model year Chevrolet Corvette Z06 and ZR1 and certain 2025 model year Chevrolet Corvette Z06 and ZR1 vehicles. These vehicles were placed in "Open" status in IVH on October 24, 2025.

Parts are NOT available for 2023-2024 model year Chevrolet Corvette Z06 and certain 2025 model year Chevrolet Corvette Z06 and ZR1 vehicles, and the status of these VINs remain as "Incomplete. Remedy Not Available". We will revise this bulletin as additional parts become available, and anticipate parts availability for all involved vehicles by the end of November 2025.

What Should Dealers Do: Dealers should review IVH, or the Dealer Maxis reports for open VINs in their inventory. Dealers can view the attached bulletin, and it will also be displayed in Service Information tomorrow.

The Stock VIN list of vehicles in dealer inventory is attached to this message. Note: this list is only accurate at the time of report creation and all VINs should be validated in IVH prior to repair.

For dealers with involved vehicles, a listing has been prepared and will be available through GM Global Connect Maxis Field Action Reports or GWM Field Action Batch Search Report. The Inventory tab of the dealer reports will contain VINs that apply to this field action. This information is intended to assist dealers with the **PROMPT COMPLETION** of these vehicles. The Customer In-Service tab will contain customer names and addresses from Motor Vehicle Registration Records. The use of such motor vehicle registration data for any purpose other than follow-up necessary to complete this field action may be a violation of law in several states.
