	2018		April 12, 2017 through December 21, 2017

Affected vehicles are identified in OASIS and FSA VIN Lists.

REASON FOR THIS SAFETY RECALL

In all of the affected vehicles, it is possible that the rear brake flexible hose(s) may leak. If a rear brake flexible hose develops a leak, the driver may experience an increase in brake pedal travel together with an increase in stopping distance. If the brake fluid level in the master cylinder reservoir becomes low, the red brake fluid warning indicator light will illuminate. An increase in stopping distance increases the risk of a crash.

SERVICE ACTION

Before demonstrating or delivering any new in-stock vehicles involved in this recall, dealers are to inspect the rear brake flexible hose(s) for any damage, including splits or bulges, and replace if damaged. If no damage is found, dealers are to reposition the rear brake flexible hose(s). This service must be performed on all affected vehicles at no charge to the vehicle owner. For new vehicle storage guidelines, refer to EFC13033, Storage Guidelines for New Vehicles.

SERVICE PROCEDURE

IMPORTANT! The Service Technician Specialty Training (STST) Competency 10 certification requirement in the U.S. market became effective for repair orders opened on or after August 31, 2024. The Field Service Action (FSA) repair will be rejected and the claim will not be paid if the repairing technician is not certified in STST Competency 10 FSA. See Electronic Field Communication (EFC)15936 for more details.

NOTE: Take note of the brake pedal feel and height. After brake pedal bleed, return the brake pedal to same or similar feel and height.

1. Pump the brake pedal 5 times. Hold pressure on the brake pedal.
2. Inspect both the left-hand (LH) and right-hand (RH) side rear brake hoses for signs of leaks, bubbling, cuts, splits, and/or bulges. See Figure 1.

FIGURE 1

NOTICE: ONLY use hand tools during the removal of the brake line bracket bolts to avoid damage.

3. Are there any leaks, bubbling, cuts, splits, and/or bulges present on either the LH or RH rear brake hoses?

Yes - Contact the Special Service Support Center (SSSC) for approval prior to performing the repair. See Photo Request Submission on Page 5. Once approval is received, continue to Step 4.

No - Continue to Step 5.

4. Replace the LH and RH rear brake hoses. Follow the Workshop Manual (WSM) Procedures in Section 206-04. Replacement of the brake hoses completes this FSA.

5. With no failure identified with either rear brake hose, clean the LH and RH rear brake hoses in the area near the knuckle bracket.

6. Use a yellow or white pant marker/pen to draw transverse lines on both sides of the knuckle bracket, setting the current position of the rear brake hose. This procedure should be performed on both the RH and LH sides. See Figure 2.

FIGURE 2

7. Once set, identify the caliper side of the rear brake hose (1) and the body side of the rear brake hose (2). Measure 5mm (0.20 in.) from the knuckle bracket and draw another line on the caliper side of the brake hose. Perform this procedure on both the LH and RH side rear brake hoses. Make sure the lines do not overlap. See Figure 3.

NOTE: Double lines are drawn on the caliper side of the rear brake flexible hose.

FIGURE 3

8. Draw 2 new lines, longitudinal to the hose on both the LH and RH rear brake hoses. See Figure 4.

NOTE: Double lines are drawn on the caliper side of the rear brake flexible hose.

FIGURE 4

9. Once the lines are drawn, displace the hose so it reaches the second line drawn on the caliper side. Use the longitudinal marks to make sure the hose does not rotate. Perform this procedure on both the LH and RH side rear brake hoses. See Figure 5. This completes the FSA.

FIGURE 5

IMPORTANT NOTE: Federal law prohibits selling motor vehicle parts or components that are under safety, compliance, or emissions recall. Unless a part is requested to be returned to Ford, all parts replaced under this FSA must be scrapped in accordance with all applicable local, state and federal environmental protection and hazardous material regulations. Refer to the Parts Retention, Return, & Scrapping section of the FSA dealer bulletin for further information.

Ford Motor Company
Recall Reimbursement Plan for 25S87

Ford and Lincoln dealers are in the best position to quickly and efficiently process reimbursement requests. However, federal legislation requires all motor vehicle manufacturers to establish processes through which customers may seek recall reimbursement directly from the manufacturer or the dealers.

Regarding the specific reimbursement plan for Recall # 25S87, owners who have paid for service to remedy the defect or noncompliance must have had that service performed before October 31, 2026. After this date, if repairs related to this recall are performed by a non-Ford repair facility in an emergency, customers must submit any refund requests through their dealership. As required by this federal regulation, Ford Motor Company submitted the details of its latest General Recall Reimbursement Plan in a letter to the National Highway Traffic Safety Administration (NHTSA) in May 2025. The following is the text of that letter and the Plan:

General Recall Reimbursement Plan
(As submitted to the NHTSA)

Pursuant to the requirements set forth in 49 CFR Part 573 and Part 577 of the Code of Federal Regulations, Ford Motor Company (Ford) is submitting required information pertaining to our general reimbursement plan for the cost of remedies paid for by vehicle owners before they are notified of a related safety recall.

Set forth below is Ford's general plan to reimburse owners and purchasers for costs incurred for remedies in advance of notification of potential safety-related defects or non-compliances pursuant to Part 573.6 (c)(8)(i). This plan has not changed since our May 21, 2025 submission.

Reimbursement Notification

Ford's notice to a vehicle owner in accordance with 49 CFR Part 577 will indicate that Ford is offering a refund if the owner paid to have service to remedy the defect or noncompliance prior to a specified ending date. In accordance with Part 573.13 (c)(2), this ending date will be defined as a minimum of ten calendar days after the date on which Ford mailed the last of its Part 577 notifications to owners and will be indicated in the specific reimbursement plan available to owners for an individual recall. This notice will direct owners to seek eligible reimbursement through authorized dealers or, at their option, directly through Ford at the following address:

Ford Motor Company
P.O. Box 6251
Dearborn, MI 48121-6251

Ford notes that this rule allows for the identification of a beginning date for reimbursement eligibility. Under the rule, an owner who paid to remedy the defect or noncompliance prior to the identified beginning date would not be eligible for reimbursement. Ford generally has not established such a beginning date for reimbursement eligibility and does not presently anticipate changing this general policy. However, in any case where Ford determines a beginning date is appropriate, Ford will indicate that date in the owner notice. As permitted by 577.11(e), Ford may not include a reimbursement notification when all vehicles are well within the warranty period, subject to approval by the Agency.

Costs to be Reimbursed

For vehicles, reimbursement will not be less than the lesser of:

- The amount paid by the owner for the remedy that specifically addressed and was reasonably necessary to correct the defect or noncompliance that is the subject of the recall, or
- The cost of parts for the remedy (to be no more than the manufacturer's list retail price for authorized part(s), plus associated labor at local labor rates, miscellaneous fees (such as disposal of waste) and taxes.

For replacement equipment, reimbursement will be the amount paid by the owner for the replacement item (limited by the amount of the retail list price of the defective or noncompliant item that was replaced, plus taxes, where the brand or model purchased by the owner was different than the brand or model that was the subject of the recall). If the item of motor vehicle equipment was repaired, the reimbursement provisions identified above for vehicles will apply.

Ford notes that costs incurred by the owner within the period during which Ford's original or extended warranty would have provided for a free repair of the problem will not be eligible for reimbursement, as provided by Part 573.13 (d)(1).

Entities Authorized to Provide Reimbursement

Ford will continue to use authorized dealers to reimburse owners under the specific reimbursement plans for a particular recall and will encourage owners to pursue requests for reimbursement directly through dealers to expedite reimbursement. Ford will also provide a mailing address to which customers can, at their option, send requests for reimbursement directly to Ford, as previously noted. Requests for reimbursement sent directly to Ford may take up to 60 days to process. Whether the owner chooses to pursue reimbursement requests through a dealer or directly through Ford, the owner will be directed to submit the required documentation, upon which reimbursement eligibility will be determined.

Required Documentation

The reimbursement determination will depend upon the information provided by the customer. Consistent with Part 573.13 (d)(4) the following information must be submitted:

- Claimant name and address
- Vehicle make, model and model year
- Vehicle identification number (VIN) and, for replacement equipment, a description of such equipment or, for tires, the model, size and TIN (DOT code)
- Identification of the recall number (either the Ford recall number or the NHTSA recall number)
- Identification of the owner of the recalled vehicle at the time that the pre-notification remedy was obtained
- An original receipt for the pre-notification remedy that includes a breakdown of the amount for parts, labor, other costs and taxes, including costs for the replacement item. Where the receipt covers work other than to address the recall or noncompliance, Ford may require the claimant to separately identify costs that are eligible for reimbursement.
- If the remedy was obtained during the warranty repair and did not correct the problem related to the recall

Failure to submit all the above information may result in denial of the reimbursement request.

Additional Information

The Part 577 required owner notice will provide a toll-free telephone number through which specific information about the reimbursement plan can be requested from Ford. This general reimbursement plan will be incorporated into notifications pursuant to Part 573.6 by reference. Information specific to an individual recall also may be incorporated into the Part 573.6 notification.
